THESE DOCKS are conveniently situated in Yokohama harbour and the situation of Captains and Engineers is respectfully called to the advantages offered for Docking and repairing Vessels and Machinery of every description.

The plant and tools are of recent patterns for dealing quickly and cheaply with work and a large stock of material is always at hand, (plates and angles all being tested by Lloyd's surveyors).

Two powerful Twin Screw Tugboats are available for taking Vessels in or out of the Dock, and for taking Sailing Vessels in or out of the bay. The floating derrick is capable of lifting 40 tons.

Steam Launches of Steel or Wood, Lighters, Steel Buildings and Roofs, Bridge Work, and all kinds of Machinery are made on the premises.

Tenders will be made up when required and the workmanship and material will be guaranteed.

The cost of Docking, and repair work, will be found to compare favourably with that of any port in the world.

A large mooring basin is available alongside our own works for mooring vessels whilst under repairs.

OPIUM SMUGGLING IN MANILA.

L. T. GRANT DEMANDS NEW TRIAL.

The question as to whether Louis T. Grant, one of the defendants in the Grant-Kennedy smuggling case, will be allowed to withdraw his plea of guilty, substituting that of not guilty, is now in the hands of the court, and a decision is expected on Monday.

This morning the written arguments on the motion presented yesterday for another pleading by Grant were handed in by both the prosecution and the defence.

Mr. Ohas C. Cohn, representing Grant, filed an able argument, covering several pages of typewritten matter, and Mr. Jesse George, prosecuting attorney, answered, also at length.

Mr. Cohn set forth that at the time of entering the plea of guilty by Grant, there existed between the accused and prosecuting attorney an agreement whereby it was mutually stipulated that for and in consideration of the said plea of guilty and the unreserved and unqualified co-operation of the defendant in the prosecution of the case against Kennedy, the prosecuting attorney would unqualifiedly recommend to the court that the punishment to be inflicted upon Grant be limited to a moderate fine. Mr. Cohn contended that Grant was ready and willing to voluntarily submit to the penalty specified, but that at the present time the agreement referred to had become wholly terminated and that the only reasons actuating the plea of guilty are wholly absent, the plea of guilty now standing in the case as having been entered into under an arrangement which does not now exist, since the prosecuting attorney, in view of Grant's failure to tell the whole truth at the outset caused the withdrawal of the promise to recommend a fine only.

Another ground upon which the defence bases its claim to a new pleading is that the two defendants, Grant and Kennedy, were charged separately and on separate complaints, and that when the case of Grant was called counsel for Kennedy "appeared without any legal right to participate in the trial and moved for a consolidation of the cases," which was not objected to by Grant's counsel as under the arrangement with the prosecuting attorney as to the penalty to be imposed upon Grant it was a matter of indifference to Grant whether the cases were tried separately or not, but that the circumstances are different and that the consolidation of the cases is material and prejudicial to the interests of Grant; that he had a right to demand a separate trial and that he omitted to do so because of the arrangement with the prosecuting attorney, and for the further reason that the plea of guilty would have prevented him from being on trial with Kennedy, at which he would, under that arrangement, have been unaffected by the evidence adduced, but that as the arrangement no longer exists, he demands a separate trial. It is further contended that at the trial Grant was a witness to his own guilt and waived the privilege to stand mute and refuse to testify against himself, and that in the absence of the arrangement he would have exercised his discretion in the matter of giving testimony unaffected or influenced by any consideration other than his own interest and welfare as a defendant on trial. Mr. Cohn also stated that at the trial all the witnesses were excluded from hearing the proceedings, and that when Grant asked whether it was desired that he leave the room too, the prosecuting attorney gave him express instructions to retire, and that he was not present at the trial except during the time that he appeared as a witness. He also referred to Grant's illness which prevented him from having an opportunity to cross-examine witnesses, and said that he made no effort to secure such an opportunity, believing that he himself was not on trial.

Summing up, Mr. Cohn said that under the circumstances and conditions stated, Grant is deprived of his right of appealing from the judgment for reviewing or correcting any errors which the trial court might have committed in the trial in the absence and without the knowledge of Grant, which he was powerless to prevent or protect himself against by exception by reason of his absence under the circumstances referred to; that Grant has been prejudiced by reason of his plea of guilty, given under circumstances which were intended to prevail throughout the trial and to the termination of the same and that the prior agreement between Grant and the prosecuting attorney having been cancelled, the defendant is entitled to a separate trial to overcome the effects of the cancellation of the agreement and to allow him to appeal from any errors of the trial court.

Mr. George answered, inclosing a transcript of a part of Grant's testimony showing that his plea of guilty was entered with the full knowledge that the court would not be bound by any arrangement between the defendant and the prosecuting attorney, and with the statement that should the court grant the motion to withdraw the plea of guilty, it would be equivalent to allowing the defendant to juggle with the court and possibly escape conviction through such juggling, because of the government's inability to produce any legal proofs sufficient to secure a conviction. Mr. George further contended that the termination of the agreement between Grant and the prosecuting attorney was Grant's own act and self-confessed perjury and failure to give to the prosecution attorney his unreserved and unqualified co-operation in the prosecution of the case; that a new trial would serve no other purpose than an appeal, when there was no claim on Grant's part that he had been misinformed or had misunderstood the facts constituting his guilt or the law governing it; that to suggest to the accused to take a frivolous appeal, without merit, whether guilty or innocent, merely to delay the execution of the sentence.

The court announced that the motion would be taken under advisement.—*Manila Times.*

CHINESE PORK CONDEMNED.

PASSED AS GOOD AND THEN FOUND TO BE DISEASED.

OFFICIAL FACTS.

I was officially stated, both in the House of Commons and the Court of Common Council, on October 7 that nine per cent of the carcasses included in the now famous consignment of Chinese pork, which had been thawed out had proved to be unfit for food.

The subject was raised in the House of Commons by Mr. Foll, who asked Mr. Burns to state:

"How much of Chinese pork has now been passed and placed upon the market, if the same was in good condition; and when the report of the inspection would be received?"

"I am informed," answered Mr. Burns, "that 1,182 carcasses out of the whole consignment of Chinese pork had, up to and including yesterday, been thawed out and examined. Of these 107 carcasses had been condemned, and the remaining 1,075 carcasses had been passed as fit for consumption."

Mr. Burns was further questioned on the Chinese pork problem, and he replied:

"I have gone with my own officers to the refrigerating stores, the wholesale markets, and the retail shops. I have had the pleasure of going down the New Cut, Lambeth, where the opinion of those more qualified to judge was confirmed by a layman."

"Have you tasted this Chinese pork?" asked Mr. John Dillon, sadly, amid laughter.

"Yes, I have," replied the courageous President of the Local Government Board, and there was renewed laughter.

CARCASSES LABELLED.

At the meeting of the Court of Common Council Mr. Taylor asked the chairman of the Sanitary Committee whether it was true that it had been found that 9 per cent of the carcasses of Chinese pigs imported into London had been found diseased on examination, chiefly from tuberculosis, and whether those tuberculous carcasses bore labels stating that they had been examined and found fit for food.

The chair of the Sanitary Committee stated that the percentage was correct and the pigs were labelled as follows:

"For export, medically examined, and certified free from disease."

It might fairly be assumed, he thought, that a further percentage might be tainted with incipient tuberculosis.

"Is the label an official or private guarantee?" asked a member.

The chairman of the Sanitary Committee replied that it was signed by a medical officer named Thompson, but he could not say at what port Mr. Thompson examined them.

Mr. Taylor said that when the carcasses were examined by the medical officer of the port sanitary authority, no disease could be detected. A hundred pigs were selected at random for examination. Later, however, when the carcasses came under the jurisdiction of the Sanitary Committee of the City of London they found the state of things which had already been described.

MANNER OF FEEDING.

He moved that in view of the evident want of proper medical examination at the port of consignment of these carcasses, the Local Government Board be asked to take steps to prevent the importation of diseased meat.

Sir Marcus Samuel said that in his opinion the manner in which pork was fed in China would always render it unfit for consumption in Europe.

It was eventually decided to refer the matter to the Sanitary Committee of the Corporation. Mr. Eric Fitter, a member of the firm of H. S. Fitter and Sons, who put the frozen pigs on the market, said to an "Express" representative last night:

"There is no reason why the discovery of tuberculosis in the Chinese pigs should make any difference to the value of the pork, because the infected animals are at once thrown away. Dutch pigs and English pigs as well often suffer from the same disease. It is quite a common complaint in pigs."

"As a matter of fact we have put more of the Chinese pigs on the market for some time because we would not set the price that Mr. Ostry, of the Cold Storage Union, asked for them. The whole batch were then frozen again, and I suppose that after a re-thawing this tuberculosis was found."

BULLION.

Messrs. Samuel Montagu and Co.'s circular, dated London, October 7, contains the following:

Gold.—The demand from Russia and France for 'bar gold' continues good, and the bulk of the arrivals, which amounted to rather over half a million sterling, were sold chiefly to the former country on the basis of 77s. 10d. per oz. Std.

Withdrawals were made from the Bank of England as under:—

Sept. 6
30 100,000 in sovs. for Egypt,
35,000 " " South America,
155,000 " " Brazil.

Oct.
2 630,000 " " Egypt,
4 300,000 " " Roumania,
6 20,000 " " Roumania,

making a total outflow for the week of £1,130,000.

Silver.—The Chinese Government has decided to forbid the currency of foreign paper money in China after five years.

The quotations for September show considerable steadiness, with a total variation of only one farthing. We append statistics for the month:—

Average price, cash, 2 mos.
Highest price, on 1st and 2nd. 25 7 1/2
Lowest price, 27th and 28th. 25 3 1/2

The prices for cash and 2 mos. were identical except on the first three days of the month, when cash commanded a premium of 1/16th of a penny. Steadiness still characterizes the tone of the market.

The price, which was believed to become heavy at 25 1/2d, advanced on purchases by

China made in Bombay and afterwards in this market.

The evident difficulty which China has, to dispense with the assistance of silver even though the stock in Shanghai stands at the enormous figure of 250 lakhs, creates a certain amount of confidence for the near future, especially as fresh loans must be put through before long.

Support has also been received from covering operations, and the Indian Bazaar have bought for shipment, though not for this week's settlement steamer.

Meanwhile, the substantial stocks on the spot and the prospect of easier money, caused forward silver to go to premium of 1/16d. on the 5th instant, which has been maintained.

In spite of the actual stocks in all the three centres (London, Bombay and Shanghai) being unusually high, the silver market cannot be said to be a weak one.

During the week £50,000 has been shipped from San Francisco to the Far East.

THE STEAM LAUNDRY COMPANY, LIMITED.

ANNUAL REPORT.

The report presented to shareholders at the seventh ordinary general meeting, held at the Hongkong Hotel, on the 30th ult., as reported in our Saturday's issue, is as follows:—

The directors beg to submit their report and statement of accounts for the year ended 31st May, 1909.

The profit on working account, after deducting £5,755 10s. 6d. for depreciation, amounted to £12,941.00 and the balance at credit of profit and loss account to £7,973.52, which the directors recommend should be apportioned as follows:—

Dividend at 8% on \$100,000..... \$8,000.00
Write off machinery and plant..... 1,980.58
Carry forward to new account..... 62.94

\$9,973.52

DIRECTORS.

The Hon. Mr. E. O'Brien retires by rotation, and being eligible offers himself for re-election.

AUDITOR.

The accounts have been audited by Mr. A. O'D. Gourdin, who offers himself for re-election.

HONGKONG, MONDAY, NOVEMBER 1, 1909.

A CHINESE OFFICIAL ON
CHINA'S CURRENCY.

So many varied and complicated schemes for the reform of Chinese currency have been formulated from time to time that it is with some doubt the average reader will approach a memorial submitted to the Throne by Sheng Hsuan-hwai, the Junior vice-President of the Board of Posts and Communications. It is entitled "China's National Bank and Currency Reform" and it is published in English by Dr. J. C. Ferguson. The pamphlet in question contains some two dozen pages, but as yet its circulation appears to have been confined to Shanghai. The subject, however, is of equal if not greater importance to Hongkong, especially now that there seems to be a revival of the subsidiary coinage question, and for that reason it should prove of interest to those who demand that the Government of the Colony should take immediate steps to maintain the small coins at a higher level

than at present obtains. The question is dealt with by an editorial writer in the Shanghai Mercury, who, however, is content to give a summary of the memorial and carefully avoids treading on the quicksands of currency affairs. We are told that the pamphlet "bears eloquent testimony" to the ability of the author to grasp facts and present them in an understandable form. Also "there are matters calling for criticism here and there, and it is not to be expected that this or any other statement can satisfy those whose views are of schools differing from that which seems to have secured the adhesion of the memorialist." That was to be expected, for it is safe to say there are no two men who see eye to eye in all matters connected with this intricate and puzzling question. The memorial outlines briefly the writer's appointment, the inquiries which he made amongst officials and merchants, the contrast which he finds between China with her 400,000,000 inhabitants and their revenue of 100,000,000 with the 40,000,000 of Japan and their revenue of 61,000,000 yen. He glances at fundamental principles and recommends the foundation of a central bank as other countries have done. "The strong points of the various systems should be selected as a model." It is imperative, he thinks, that the new bank and the new currency come together. The addendum deals with previous efforts to provide China with a dollar currency in various provinces and remarks that though the number of places where dollars have come into use in the country has been constantly increasing, the import of Mexican dollars has fallen off within recent years, the inference being that the native dollars already coined have begun to oust the foreign article. It is noted that the attempts to introduce tael coins were unsuccessful on each and every occasion. No explanation is offered as to the reason why, but the probable explanation is the old law that a poorer currency effectually keeps out or drives out a richer one. In the appendix the writer goes into further detail regarding currency and the bases on which it may be built up. All these are matters which do not necessarily affect the main issue, which is the habilitation of Chinese currency. In passing, we may note that the suggestion that China's revenue can properly be compared with Japan's will not hold water, for the simple reason that the system of government in one country is radically opposed to that adopted by the other. But it seems a falling which Chinese students cannot get over. Coming to what may be described as the basis of his thesis, the writer deals with the subject of paper money, which he holds should be issued from the national bank only, all such notes being "payable to bearer on demand" and a sufficient reserve of bullion being kept for that purpose. Gold coins of three values, 20, 50, and 55, are recommended, but the memorialist introduces a saving clause here. He says, "Preparations should be made at once for the determination of the value of the proposed issue of gold coins, although on account of the scarcity of gold it may not be possible to issue them at once." It will be seen that the writer takes heroic bounds when he begins to deal with his subject. For example, his idea of limiting the issue of bank notes to the national bank alone is open to argument. There is not a country in the world where the national bank is sole arbiter what notes shall be issued. The point is that the law should have power to interfere where private banks seek to introduce note issues without making due provision for their redemption at their face value. Mr. Sheng apparently passes over that point and proceeds to consider the possibility of a gold currency, without taking the first step towards that end of establishing the present or nationalised currency on a gold basis. In other words he would have a gold reserve before he had a gold standard. It is probable, however, that he does not altogether miss the usual procedure for he says that the great object is "to make a fixed rate of exchange between its (China's) currency and those of foreign countries, and thus to avoid the loss occasioned by fluctuations." The question whether China's gain under the supposed conditions would be greater than the advantage she might derive from a purely silver currency is too wide to be entered upon. Many authorities think that, particularly in exports to gold countries, the gain thus made should more than make up for the loss in fluctuation. It is upon this assumption that it has been argued by bi-metallicists that "the yellow man with the white money would have an advantage over the white man with the yellow money." India is cited as an instance of a country which has a gold standard without a gold currency but it is believed that what answers there might not answer in the case of China. With regard to the silver currency the writer contends: "This must be national, not provincial. There must no longer be an interregnum conflict between dollar and dollar and note and note. The motto for the future is unification. Why native merchants have in the past refused to take native dollars and have welcomed foreign is noted but not explained. Perhaps it was felt that explanation was unnecessary. But the reviewer (quoting the Mercury), would fall in with him if he did not allude to the

fundamental necessity for a stable, coinage which has for generations, indeed for ages, been lacking in China. Ten letters only are needed to define that sine qua non—C-o-i-n-f-i-d-e-n-c-e. H.E. Sheng is evidently shocked at the havoc wrought during the past few years by the tremendous issues of depreciated copper coinage. As this is no new thing in China, except in the form of the coin, he need go no farther for an explanation of the unpopularity of native dollars. When a man has to carry about with him a bottle of acid and a weighing machine in order to make sure that he is not being cheated by every coin handed to him, he will jump at any chance to get money which does not need this trouble and expense. Honest money then becomes popular. Men have confidence in it as they have in the Mexican now in use, or in the notes of the Hongkong and Shanghai Bank. China's new currency, then, whatever form it takes, must be scrupulously kept up to its official standard, otherwise it is doomed to failure from the outset. The problems of minting, bank-note printing, the amount of currency necessary, and the redemption of the present debased coinage are all considered in the remaining pages of the pamphlet with sufficient fullness to be intelligible. The suggestion that the depreciated copper coins should be called in at the rate of 125 to the dollar, and the loss borne by the government so that it should not fall on the people, sounds altruistic enough. But we (Mercury) might ask, Why should the people lose the 25 per cent? Who has profited by that? Excellent advice is given respecting the development, as soon and as fully as may be, of all possible gold, silver, and copper mines. In any case it will be necessary to float a loan to supply the initial metal, but after that the more China can develop her own bullion the better for her. If, as is suggested, all her taxes, duties, &c., are made payable in the new coinage, the new departure would soon become a success and the coinage get into circulation. As may have been gathered from the foregoing the pamphlet deals with generalities only. There are endless details which the memorialist himself probably knows nothing about, but which must be carefully considered, each in its proper place, if the structure of China's future finance is to hold together, and not fall to pieces bringing down with it the whole national credit in one tremendous smash. It is something to know and rejoice over that an important Government official in China is concerning himself with the question but it yet remains to be seen whether this addition to the voluminous papers on the reform of China's currency will bear fruit.

LOCAL AND GENERAL.

It is stated that much pestilential sickness prevails in Yü in province.

THE English mail of the 2nd October was delivered in London on the 3rd October.

A CHINESE amah was this morning bound over in the sum of \$15 to keep the peace for six months for using abusive language towards a European woman.

A DEPORTED Chinaman from Java was awarded six weeks' hard labour this morning for stealing the luggage of a Chinese passenger on board the s.s. Tjiluwang.

THE Government has telegraphed to Viceroy Yuan Shu-hsin in Canton, ordering him to inspect the Yülin harbour with a view to its conversion into a naval station.

A RUMOUR is abroad that a scheme is well under way for establishing an extensive sugar refinery on the left bank of Suigari under the joint management of some German and Chinese merchants.

THE Agents (Messrs. Messageries Maritimes Co.) inform us that the cargo of silk shipped on board the s.s. Polynesian which left this port on the 28th September was delivered in Lyons on the 30th ult.

It is stated that the Ministry of Finance has given orders to the Provincial Governments to mint copper coins of five, two and one cash denomination, and they replied that the last-named denomination was very little used, but that the other two should be struck in large numbers. The Ministry approved of the suggestion.

THE WEATHER.

The following report is from Mr. F. G. Figg, Director of the Hongkong Observatory:—On the 1st at 11.55 a.m.—The typhoon has entered Annam to the South of Tourane. Barometric changes in other areas are unimportant.

The area of high pressure extends from the Lower Yangtze to E. Japan. Strong monsoon may be expected in the Formosa Channel and the N. part of the China Sea.

Hongkong Rainfall for the 24 hours ending at 10 a.m. to-day, 0.05 inches.

FORECAST.

1.—Hongkong and Neighbourhood, N.E. winds, fresh; some rain.
2.—Formosa Channel, N.E. winds, strong.
3.—South coast of China between Hongkong and Lanchow, same as No. 1.
4.—South coast of China between Hongkong and Hainan, same as No. 2.

Fray at Shau-ki-wan.

OFFICER VERSUS BOATSWAIN.

SOME BLOOD-LETTING ON SATURDAY NIGHT.

Two combatants, and it is a marvel that others were not in it, were injured in a serious fray which occurred at Tai-koo just before midnight on Saturday. So far as we understand, the case has been reported to the police authorities but until one at least of the parties is out of hospital no steps can be taken.

Three boats are working to our information, lying at Tai-koo sugar works waiting to discharge heavy cargoes of sugar. It is on one of these vessels, that the trouble arose—a British craft—and it affords evidence how easy it is to originate trouble. On those boats lying at the wharf, the boatswain is supposed to keep duty. Whether that is according to the law of the port or not we cannot tell, but the boatswain is believed to have left his post when two officers of the ship, a deck officer and an engineer, discovered that the boatswain was absent.

The time was about 11.30 p.m. The second officer proceeded to the crew's quarters and called for the boatswain. Parenthetically, it may be said that we are told the boatswain, a Chinaman, had received what is known as his "walking ticket." The Chinaman appeared on deck and being perhaps half asleep said several very uncomplimentary things to the officer, who sharply reminded him where he was. According to this story, which we are assured will be heard in Court shortly, the Chinaman caught hold of a broom, made a "swipe" at the second officer, but missed, merely knocking off his hat. It is now alleged that the European brought a Malacca cane into use and showed his abilities by laying the boatswain low, with a severe cut on the head.

No sooner had this happened than the rest of the crew called up from the forecastle by the cries of the Chinaman, advanced menacingly. They were armed with all manner of missiles, including iron bolts, basins and, in fact, whatever they could put their hands on. One of the engineer officers jumped to the wharf and made his way to the adjacent ships, asking for help. Both the Dutch and British crews of the vessels went to the aid of their mercantile marine friends, taking with them a miscellaneous lot of guns and revolvers. They succeeded in driving the Chinese back to their quarters.

The captain, who had been ashore, returned about midnight, heard the whole story and immediately ordered that the Chinese sailor should be sent to the Government Civil Hospital. The man was suffering from bruises about the head, and had lost a quantity of blood. The order was obeyed and in the early hours of the morning the man was taken to hospital. We understand that he is in no danger. The second officer has been badly hurt about the body and legs but he also is all right.

Considering that none of the parties was able to appear in Court to-day there is no prosecution as yet, but there seems to be no doubt from the attitude of the Chinese crew that more will be heard of the matter.

SHANGHAI RACES.

MEETING POSTPONED.

We are courteously informed that the Hongkong Jockey Club has received a telegram advising that, owing to heavy rains, the Shanghai race meeting, which was to have commenced to-day, has been postponed.

HONGKONG AND MANILA.

EXCHANGE OF SYMPATHY.

A few days ago the people of Hongkong, alarmed by the prevalence of malaria, in certain sections of the city, stirred up the municipal authorities to take some action looking toward the extermination of the pest and the protection of the public health. As noted in a former issue of this paper, little or nothing was accomplished because so many branches of the government had something to say about what was to be done to get rid of mosquitoes.

The condition of things in Hongkong in matters of the public health seems to be so nearly the same that it is in Manila that there should be an exchange of sympathy now and then between the citizens of the two places.

The conflict of authority in matters of sanitation in Manila has been discussed so much in the past and so keenly lamented by those who desire to see the city clean that it is almost like opening the family closet and having a look at the skeleton to mention the subject. But there are sometimes when it is good for both the family and the skeleton to have the door opened.

A few days ago a prominent resident of Manila called our attention to the fact that there are sections near the very heart of the residence districts of the city where holes are deliberately dug and allowed to fill with water in order that the carbolic may wallow in them. The same gentleman said that he had frequently called the attention of the health authorities to the fact and asked that the holes be caused to be filled up in some place; but was told that the bureau of health had no authority to act in such cases, that there was neither law nor ordinance by which the owners of the land could be compelled to abate the nuisances in the interest of the public health.

If this is true the shame of Manila's health regulations is greater than was generally supposed and the reproach of it must fall on those who have the authority to make the laws that govern in the matter.

Here is where we reach out the hand to Hongkong with the fellow-feeling that characterizes the victims of the same unkind fate. Over there the government can't afford to cut down the brushwood on the Crown lands and the botany department won't let the citizens do it for fear that they won't do it right. Over here the government has no authority to fill up the carbolic wallows and the citizens who own the land and the carbolic won't do it—Catholics.

Government Luck.

DOUBLE RENT FR M. CHINESE FARMERS.

HOW TO SWELL THE REVENUE.

Sometimes the Government is accused of laxity in its surveillance of property. That may be so, but it happens occasionally that the Government, represented by the Public Works Department, is not only acute but, marvellously "knowing." A case cropped up in the Magistracy to-day which goes to prove that the Government is still keeping a sharp eye on the treasury returns from leased land, and has been doing so for ten years and more. Two Chinese women farmers, their names in this case do not matter, lived at Shek-O. They had a piece of land on which they cultivated paddy, potatoes and vegetable fruits. Previously, one of the women had been bound over to keep the peace against the other, the friction occurring over this piece of land. Last week the dispute came to a crisis when one of the parties discovered the other cutting the paddy and getting it ready for sale. All this, as the reader will see, is very absurd, but the humour (to the outsider) comes later. The crop had been sold in advance and there was accordingly a royal row.

The case came before Mr. Hall (ex at the Police Court this morning) and some singular facts were disclosed. It is not necessary to go into the evidence, but it seems that for the last ten or twelve years both people have been paying rent to the Government for the use of 19 pieces of land and that land is the time in each case. Did the Government refuse to take the double rent for the patch of ground? Of course not; the Government thankfully received the rent—it was not a great amount but big enough for small farmers—and held its peace. The fun began when the land was ploughed by one farmer and the crop sold by the other. There were "words" between the two tenants of the Government and Inspector Collett was called in to adjudicate.

It was then discovered that each of the parties had rent receipts going back to 1900 or farther—receipts for the same land, from the Government. What was a magistrate to do in these circumstances? Like a sensible man Mr. Hallifax refused to be the Solomon in the case and it was withdrawn by consent of the Court. During the evidence, it transpired that the Survey Department knew nothing about this ground—a patch that would only make a decent kitchen garden—but the Government, always willing, took the double rent all the same. Little wonder that the two tenants of the same land made an obnoxious exhibition.

We are told that the Public Works Department intend to take two months to discover who owns the patch—there is a doubt whether it belongs to the Government at all. But the claimants to the land are not quite so happily situated as the Government. The paddy is ripe and in two months it will be rotten unless it is cleared off the land and sold. Who then is to bear the loss? That was the question those interested in the proceedings were asking each other. But the Government is happy in the knowledge that for the last dozen years it has been receiving double rent for land planted by Chinese and the only wonder is—will it disgorge when the real owner is found?

WANTED TO BUY HONGKONG.

ALLEGED INCIDENT ON BOARD THE "TAK HING."

In the course of a summary case in the Supreme Court this afternoon, the following dialogue took place between the plaintiff's solicitor and a Chinese witness:—

You used to be on friendly terms with Captain Cooper?—Yes, I visited him occasionally.

You used to visit him frequently?—Yes, but I stopped doing so since he attempted to strike me.

Didn't you suggest to Captain Cooper that a rich Chinaman abroad should make up a subscription to buy up Hongkong?—No.

Didn't Captain Cooper say you were absurd and ought to join the Self-Government Society at Canton?—No. I have no connection with the Self-Government Society.

You are a Californian-Honolulu merchant?—Yes.

CAPTAIN COOPER'S CLAIM.

JUDGMENT RESERVED.

In the Summary Court, this afternoon, the case was continued in which Captain Cooper, late master of the s.s. Tak Hing, brought an action against the Sze Yap Steamship Company to recover the sum of \$1,000 as damages for alleged wrongful dismissal. One month's salary was paid into Court.

Mr. Mr. Reider Harris (of Messrs. Wilkinson and Crist) appeared for the plaintiff and Mr. P. Sydenham Dixon (from Mr. R. A. Harding's office) was for the defendants.

Further technical evidence was called, in the course of which certain allegations were made against the plaintiff, judgment was reserved.

SHIPPING AND MAILS.

MAILS DUE.

German (Kluis) 3rd inst.

Indian (Kamsang) 11th inst.

The P. M. S. S. Co's s.s. Sileria arrived at San Francisco on 28th inst.

The C. N. Co's s.s. Lianan left Shanghai on 31st ult., and is due here on 3rd inst.

The H. A. L. s.s. Sileria left Manila on 31st ult., and may be expected here on 3rd inst., a.m.

The T. K. K. s.s. Tawo Maru sails from Yokohama to-day, and is scheduled to arrive at this port on 10th inst.

The Imperial German Mail s.s. Prinz Regent Ludwig left Shanghai on 30th ult., at 8 p.m., and may be expected here to-day at midnight.

The Imperial German Mail s.s. Kluis carrying the German Mails with dates from Berlin of the 6th ult., left Singapore on 30th ult., at 8 a.m., and may be expected here on 3rd inst., at noon.

Prince Ito's Assassination.

DETAILS OF THE TRAGEDY.

ACCOMPLICES ARRESTED.

Tokio, October 27. The newspapers speak with the deepest sorrow of the assassination of Prince Ito, who died of his wounds yesterday morning at ten o'clock.

The murderer is a native of the province of Phoenia. He arrived at Harbin on Monday evening, by way of Vladivostok, slept in the open air and mingled with the Japanese who had assembled at the railway station to meet Prince Ito. As the latter was finishing his inspection of the Russian guard of honour, the assassin fired six shots at him, three of which hit him, two proving fatal.

Two men suspected of being the murderer's accomplices have been arrested. They declare that more than thirty of their compatriots were in the plot. The murderer says that he assassinated Prince Ito in order to restore the national honour which he, the late Resident-General had injured.

THE HOMEWARD JOURNEY.

Prince Ito's body has been sent to Tairen. Major-General Horvat, Chief of the Harbin Railway Staff, and Mr. Korostovets accompanied the remains to Kuangchengzhi. At every station where the train stopped, were bands playing funeral dirges, and Russians wearing badges of mourning saluted the carriage in which Prince Ito's body lay.

Representatives of the Emperor and Empress of Japan, the Crown Prince of Japan, and the Korean Crown Prince have left Tokio on board the cruiser Akitsushima, specially recalled, for Tairen to convey Prince Ito's body to Japan.

The Korean Court and Government are greatly shocked by the tragedy. Representatives of the Emperor of Korea and of the Premier, a Councillor from the Residency General and the Japanese Attorney-General have left Chemulpo.

LORD KITCHENER'S SYMPATHY.

Field Marshal Lord Kitchener, Viceroy of India, and the Governor of Mukden have sent messages of condolence from Mukden.

The Governments of Russia and China have expressed their deepest regret at the sad occurrence.

A STATE FUNERAL.

Tokio, October 28. The announcement of Prince Ito's death has been published in the Genji. A State funeral will be accorded to the late statesman.

The cruiser Akitsushima with Prince Ito's body on board left Tairen and is expected to arrive at Yokohama on November 1. Various arrangements of a public character in Tokio and elsewhere throughout Japan have been cancelled.

THE SOURCE OF THE CRIME.

Prince Ito's assassin is reported to have been influenced by the headquarters of the Korean insurgent movement at Vladivostok, as was the case with the assassin of the late Mr. Stevens at San Francisco.

The Japanese journalists at Seoul have adopted a vigorous resolution (with regard to the treatment of the insurgent movement) Viscount Sone, the Resident-General, would appear to be equally firmly determined on the line of action to follow though for the present he declines to speak explicitly.

We are courteously informed that the Japanese Consulate-General has received the following official telegram, dated Peking, October 27:—

His Excellency Prince Ito deceased at Harbin at 10 a.m. on the 26th instant and His Majesty the Emperor has ordered that the remains of the late Prince be accorded the honour of a national funeral.—N. C. D. News.

THE WEISMANN PROSECUTION.

CASE DISMISSED.

In the Police Court, this morning, the case was dismissed in which the Café Weismann was charged with an alleged breach of the Liquors Ordinance.

The presiding Magistrate (Mr. J. R. Wood) remarked that the case doubtless arose out of some misunderstanding between the Police and the defendants, which prevented him from coming to a decision.

Mr. Eldon Potter, instructed by Mr. Crowther Smith (of Messrs. d'Almeida and Smith) appeared for the Café Weismann. Detective Sergeant O'Sullivan watched the case on behalf of the Police.

ROBBERY IN MASTER'S PRESENCE.

FARMERSON'S MEDALS DISAPPEAR IN BROAD DAYLIGHT.

A certain house in Coombe Road near Magazine Gap, was the scene of an extraordinary robbery yesterday afternoon. The robbery was committed at No. 149, Coombe Road, the residence of Mr. W. H. Parcell, shortly after three o'clock yesterday afternoon. It appears that Mr. Parcell was lying in his bed-room reading and while thus engaged, one of the house-boys entered the room and made towards a chest of drawers where he lingered for some time under the pretence of dusting it. Mr. Parcell naturally did not even give to the "boy" a passing thought and went on reading. It was not till some time after, when he casually pulled out one of the drawers, that he discovered that three of his freemason medals were missing. He made a report to Mount Gough Police Station and investigations were at once instituted by the Sergeant in charge with a view to the "boy's" apprehension. A search was started for the runaway "boy," who was run in on board one of the Canton steamers, on which the three diamonds intended to escape. He was at once arrested and detained in Police custody, where he will remain until his appearance before a Magistrate (to-morrow).

Telegrams.

"HONGKONG TELEGRAPH" SERVICE.

PRINCE ITO'S ASSASSINATION.

LARGE NUMBER OF ARRESTS.

[By courtesy of the "Sheung Po"]

Peking, 31st October.

Prince Ito's assassin, whose name is Im Tai-nam and is 31 years of age, is a member of the Korean Patriotic League.

The Russian authorities have, up to the present, effected more than thirty arrests in connection with the assassination.

KOREAN EMPEROR'S APOLOGY.

Owing to the assassination of Prince Ito, the Emperor of Korea has sent a special envoy to Japan to apologise for the deed, and has also presented a sum of \$30,000 as a contribution towards the funeral expenses.

KOREAN INSURGENTS' ACTIVITY.

On the 30th inst. there was a rising of a few hundreds of Korean insurgents who began destroying official buildings and railway stations (in Seoul).

THE MANCHURIAN TOUR.

The Japanese Government are appointing another high official in succession to the late Prince Ito to conduct a tour in Manchuria and to confer with the Russian Minister of Finance on affairs relating to the Province.

The Central Government (in Peking) on hearing this has become rather alarmed. The Prince Regent has, accordingly, ordered Grand Councillor Na Tung to interrogate the Japanese Minister on the subject. Not having had a satisfactory reply yet, the Prince Regent wired to the Chinese Minister in Tokio to ascertain privately Japanese intentions concerning Manchuria.

MACAO'S DELIMITATION.

A KNOTTY PROBLEM.

[By courtesy of the "Sheung Po"]

Peking, 31st October.

H.E. Ko Erh Ch'ien, Chinese Delimitation Commissioner, has telegraphed to the Central Government to the effect that the Macao delimitation question is still very difficult of settlement.

CANTON-HANKOW RAILWAY.

THE LOAN AGREEMENT.

[By courtesy of the "Sheung Po"]

Peking, 31st October.

The Central Government has instructed Hsu Shih-chang, Wang Tai-shih, and Liang Shih-yi to conduct negotiations with representatives of Germany, America, England and Russia concerning the loans for the construction of the Canton-Hankow and Hankow-Szechuan Railways.

NEW MINISTER TO ROME.

DEPARTURE FROM PEKING.

[By courtesy of the "Sheung Po"]

Peking, 31st October.

Wu Tsung-lun, the new Chinese Minister to Rome, left Peking to-day in company with the wife and son of Prince Su.

WEST RIVER FLOODS.

10,000 HOMELESS.

[By courtesy of the "Sheung Po"]

Yang-ping, 31st October.

Owing to the recent typhoon and the subsequent floods in these districts a few thousand houses have collapsed.

At present over 10,000 people are homeless. The relief measures organised in Canton are wholly insufficient to supply the people's destitution. Accordingly, the homeless thousands are in great distress and many have resorted to robbery and plunder to provide their means of subsistence.

CANTON DAY BY DAY.

MACAO DELIMITATION QUESTION.

[From Our Own Correspondent.]

Canton, 30th October.

In reference to the negotiations now in progress between the Chinese Delimitation Commissioner, H. E. Ko Yu Him, and the Portuguese Delimitation Commissioner on the Macao boundary question complaints have been repeatedly lodged by the gentry in this city and those residing in foreign countries against the alleged failure on the part of H. E. Ko to oppose the Portuguese claims and furthermore against his withholding all information of what had transpired at all the previous conferences between himself and the Portuguese Delimitation Commissioner from publication. Another telegram has now been forwarded to the Viceroy, H. E. Yuan Shu Han, by the Chinese residing in Annam, urging him to exercise his best efforts in co-operation with H. E. Ko to protest against the Portuguese in the delimitation question, and asking him earnestly to give authority that the proceedings at all previous conferences be given publication for the information of the people in order to pacify their minds.

GAMBLING.

H.E. Viceroy Yuan Shu Han has shown great energy in his anti-gambling campaign in the province of Kwangtung. H.E. Yuan has given instructions to his subordinates to consult the local gentry on the matter carefully with a view of making definite arrangements to abolish the various gambling monopolies.

FLOOD RELIEF.

The Canton Central Relief Committee has sent out the second deputation on board a steam launch with rice and other necessities to the flooded districts for distribution to relieve the sufferers.

The Viceroy has also sent the gunboat *Kwang Heng* to proceed up the West River with rice to assist those in distress in the riverine districts.

BANKRUPT IN TROUBLE.

CASE AT THE MAGISTRACY.

Before Mr. E. R. Hallifax (First Magistrate) in the Police Court this afternoon, Mr. M. Ebrahim Moosa, late of Moosa e Vieira and Company, was charged with the alleged concealment of certain property prior to the institution of bankruptcy proceedings some time ago.

Mr. W. B. Hinde (of Messrs. Brutton and Hellyer) instructed by the Official Receiver, appeared for the prosecution and Mr. Eldon Potter, instructed by Mr. G. D. Wilkinson (of Messrs. Wilkinson and Grist) defended.

Argument was heard and the case adjourned, bail being allowed in the sum of \$15,000.

LORD KITCHENER'S TOUR.

MANCHURIAN BATTLEFIELDS.

Tairen, Oct. 26.

Lord Kitchener and his party left Tairen for Mukden on Sunday afternoon. The South Manchuria Railway Co. placed a special train at his disposal and numerous Japanese officials of high rank were present at his departure.

On the way to Mukden Lord Kitchener visited the Nanshan and Liangyang battlefields. Lord Kitchener is the guest of Viceroy Li Liang and he will remain at Mukden until the 27th instant, when he will leave for Seoul travelling by the Antung-Mukden railway. He will arrive at Shimonoseki on the 31st instant.

Colonel Bruce, Captain Superintendent of the Shanghai Municipal Police, who has acted as Lord Kitchener's guide in the North, will return to Shanghai direct by way of Tairen.—N. C. D. News.

THE NEW TERRITORY MURDER.

ONE MAN COMMITTED FOR TRIAL.

The three men who had been arrested in connection with the recent double murder in the New Territory again appeared before Mr. J. R. Wood (Second Magistrate) on Saturday afternoon. It may be remembered that shortly after 8 a.m. on the 20th August last, two Indian policemen in charge of a treasure-box arrived at a narrow passage on the Tai-po road, where they met eight Chinese sitting on both sides of the road. Thinking nothing of the circumstance, the guards were about to pass the men, when the latter set upon the unsuspecting policemen and before the unfortunate men had time to realise their position, they were brutally backed to death with choppers by the unscrupulous gang, who then made away with the booty and escaped to adjacent territory.

Mr. F. B. L. Bowley (from the Crown Solicitor's Office) having addressed the Court, His Worship discharged two of the prisoners and committed the third for trial. Another man who offered to turn King's evidence was remanded for a week.

INTERPORT SHOOTING.

THE SHANGHAI TEAM.

The committee of the Shanghai Rifle Association is making arrangements for the forthcoming interport shoot, and special practice for this will be held from the 4th to 15th November. At present unfortunately two of the leading marksmen in Shanghai are ill, namely, Mr. W. O. Lancaster, who has just undergone a severe operation from which he is fortunately well on his way to recovery, and Mr. H. Linde, neither of whose services will be available. The following twenty names have however been chosen by the Committee, and from these a team of ten will be chosen:—

Captain E. I. M. Barrett, E. H. Lynch, W. Broad, O. Richards, F. Large, T. B. U. Aldridge, H. W. Dally, A. E. Collins, M. Co. Lin, F. A. M. d'Almeida, R. Brock, L. A. Chell, J. Burke, P. W. Mackintosh, C. Dawing, Captain A. Hilton-Johnson, C. Matthews, G. Hill, J. McDowell and G. Kingsmill.—Shanghai Morning.

THE LEVYING OF A DISTRAINT.

CHARGE AGAINST A RENT COLLECTOR.

Before Mr. J. R. Wood (Second Magistrate) in the Police Court, this afternoon, Aryn, the rent-collector of Messrs. David Sassoon and Company, was charged with, not being a bailiff, unlawfully issuing a distraint at No. 31, McGregor Street, on the 26th September last.

Mr. H. L. Denys (from the Crown Solicitor's office) prosecuted, and Mr. H. W. Looker (of Messrs. Deacon, Looker and Deacon) was for the defendant.

It appears that complainant, a Chinese woman, was on the day in question turned out by the defendant, who then seized her property. Evidence was called and the case adjourned.

LEAGUE FOOTBALL.

At an early hour on Saturday afternoon Happy Valley was well filled with "lovers of football" to witness the interesting games played in both divisions, first and second.

FIRST DIVISION.

H.K. F. C. vs. NAVAL YARD.

The Club met the Naval Yard at their ground, and the teams lined up were:—
H.K. F. C.—F. H. Kew, F. G. Carroll and J. McCubbin; Hunter, R. C. Barlow and Chapman; A. Aitchison, W. Weston, Manning, Whitmarsh and H. W. Sayer.
N.Y.—Lethbridge; J. C. Joughin and Rochford; Coombes, Haines and Macey; Crowley, Pye, Mears, Wilcox and Daltiel.

The Club kicked off and the leather was passed to Aitchison who rushed it up to the Yards' territory and centred same, and a goal was tried for but the ball went too wide. The Club attacked all along but the Navalmen's defence was too good and put the Civilian out every time. The ball was all over the field in the first half, in which both sides tried to score but nothing resulted. The Club goal looked dangerous at nearly the end of the first half when the ball was passed to Crowley who was all by himself till about five yards from goal; Kew, the goalkeeper rushed up and managed to get the ball off him and placed it away. The ball was brought in immediately again after this till a yard away from goal, and Chapman was a bit too quick for his opponent. He saved the goal and gave the Yards a corner. The corner kick was placed well but nothing eventuated, and the whistle sounded for half time with no goals registered.

The game was a fast one in the second half and the Civilian had matters their own way. Aitchison had the ball and passed to Whitmarsh who beat Lethbridge in an excellent shot. Soon after a corner was given and Weston netted the second goal. The leather was in play for some time, and the Yards got same and tried a few times to beat Kew but there was "nothing doing" as the man was too good for his post. Sayer passed the ball to Manning who scored the third and last goal. The scores were H.K. F. C. 3; Naval Yard, 0.

R. G. A. vs. ENGINEERS.

The teams were R. G. A.—Beasley; Oxley and Waters; Walker, Weaver and Hewitt (Cromp, Ansell, Watts, Nash and Bells).

R. E.—Smith; Beasmore and Cully; Lamb, McOray and Jackson; Parlow, Meacey, Morish, Taylor and Ormond.

The Artillerymen had matters all their own way throughout the game. Wait opened the score for the gunners. The R. A.'s then beamed the Sappers' goal for some time during which Wait got the leather and beat Smith the second time. The third goal was also scored by him. The Sappers now had the opportunity and got possession of the ball and led it down the Gunners' territory and made a few attempts to open their score but went too wide, and at last Meney put in the first goal for them. Nash then scored the fourth goal for the R. G. A. Paslow played well and placed some excellent and hard shot at goal, but Beasley cleared every time. The scores stood in the first half: Gunners 4, Engineers 0.

The second half proved a better game; the ball was all over. The Sappers attacked the R. G. A. goal; it did not take them long to send the leather down the field again. Wait then got possession of the ball, and put in an excellent goal. The Engineers had a few good tries in which Morish beat Beasley with a hot singer. Not long before the whistle sounded for time the Artilleryman netted the last goal, making the score 6-2.

K. F. C. vs. BUFFS.

This proved the most interesting game of the three. The Kowloonites only allowed the Buffs to score two goals. They should do well at the end of the league if they go on at this rate.
K. F. C.—Foulkes; Allen and Lepelley; Storrie, Cooper and C. Wilkie, Hedley, Morris, Brown, T. Wilkie and Mead.

Buff's—Black; Ruler and Bartlett; Dore, Wren and Tanspelt; Fitzpatrick, Drew, Taylor, Brewster, Baker.

The above terms lined up punctually at 3 o'clock on Saturday afternoon. The field was crowded with supporters for both sides. The Kowloonites put up a much stronger game than they did in the previous match, and, of course, the Buffs had all they wanted in scoring the 2 goals.

The first goal was netted by Fitzpatrick in the first spell and Brewster scored the second in the next half.

LEAGUE TABLE.

Played Won Lost Drawn Points.

Buff's	4	4	0	0	8
R. G. A.	3	0	0	0	6
K. F. C.	4	1	2	1	3
H. K. F. C.	4	1	2	1	3
R. E.	4	0	2	2	2
Naval Yard	3	0	3	0	0

SECOND DIVISION.

Only three matches were decided in the second division, the M.R.C. vs the "B" Co., Buffs was postponed for this afternoon; kick off at 1.15 p.m. on the Military Ground, owing

to some misunderstanding between the two divisions.

L.R.C. vs. R.O.C.

The teams were as follows:—
L. R. C.—G. M. S. Alves, A. A. Carvalho, L. G. Cordeiro, A. H. Hyndman, F. H. Hyndman, J. M. Brito, F. Soares, A. Ribeiro, R. C. Silva, F. M. Cruz and T. Cordeiro.

R. O. C.—S. Jex, Redfern, H. Goldsbury, J. Chew, D. Baptista; I. E. Chunyat, Y. Abbas, A. Abbas, I. L. Goldenberg, Stemmers and Caborne.

All expected the latter team to win but it did not take long for matters to change. Each side played with ten men in the first half. The Lusitanos defended well in the first portion of the game, and kept the "Boys" busy knocking about. Both sides tried to score but nothing happened and needless to say the score stood nil all in the first spell.

The second half proved a little better, and the Lusitanos rushed down with the leather to the "Boys" goal; which one or two of the Youngsters stopped and shouted off side but that was not so as the referee did not blast his whistle, and Cruz had the ball all to himself and scored the first goal for the L. R. C. The Boys were then seen attacking their opponents' goal throughout but the shots went too wide. Just in the nick of time H. Goldenberg equalised, and about two minutes after this a corner was given against the Lusitanos. The kick was not taken as the whistle followed for time immediately. Thus the match ended in a draw one all.

No doubt, the "Boys" had a stronger team and should have scored a win, but selfish play was seen on their part throughout the game; at least three of the players were so guilty. They should be made to understand that a team should have some sort of a combination game, otherwise it is useless.

33RD CO. R.G.A. vs. 88TH CO. R.G.A.

This match was played on the Lyemum side, and the former team defeated the latter by one goal to nil.

"A" CO. BUFFS vs. 87TH CO. R.G.A.

The above two teams met on the Parade Ground. The "Buffs" played a good game and won by 2 goals to nil.

ANTI-OPIMUM CAMPAIGN.

PROGRESS IN FOCHOW.

Mr. J. F. O'Brien, Commissioner of Customs, writes, in his annual report on Fochow as follows:—

In a report issued last spring by the Fochow Anti-Opium Society it was claimed that owing to the efforts of the society the production of opium in this province had been reduced by 50 per cent. Since then—in July and again in October—the Viceroy has issued a proclamation by Imperial sanction strictly forbidding the cultivation of the poppy throughout the province under severe penalties; including confiscation of the land. It is generally believed that this injunction will really be enforced. The Viceroy will send deputies to every district where opium has hitherto been grown, and the Anti-Opium Society will exert its vigilance and influence in bringing cases of evasion to the notice of district officials, as well as in bringing pressure to bear on the latter when disinclined to do their duty. Moreover, public sentiment has unquestionably been deeply stirred against the growth and use of opium, and will not merely aid but impel officials to take action. Assuming that production will thus be stamped out, the Customs returns of importation will in future give the figures of the actual consumption of opium in this province; for there is no overland importation and not likely to be any. It is beyond all doubt that the increase in the ranks of opium smokers has been practically checked by the combined influence of the Imperial Edicts and popular will. Opium smoking is no longer a fashionable pastime, a rakish habit which youth felt urged to acquire; it is now regarded as bad form and is distinctly out of favour with young men. All opium-smoking establishments have been closed; overt smoking at least has been suppressed in restaurants, inns, drinking houses, and brothels; and in private houses as well as business places the opium pipe is no longer kept in the reception room or offered to visitors. In the attainment of these results the influence, vigilance, and unremitting efforts of the Anti-Opium Society have been of inestimable value. The society has many important and influential men among its members; it has branches in almost every town and even in many villages; it is greatly trusted by the authorities in carrying out anti-opium measures; and it has, in the main, made good use of its influence. Several hospitals have been established by the society for the free treatment of opium smokers, and already, in March last, the society could report that over 2,300 persons had stopped smoking through the help of their hospitals alone. That many light smokers have succeeded in ridding themselves of the habit is unquestionable; but it must be feared that the greater part of the vast army of confirmed smokers will lack the will power to break with the vice; and that many in their pathetic efforts to find a cure are deluded by unscrupulous vendors of remedies containing morphia, and thus become the victims of this even more deleterious form of the drug. The amount of opium consumed will consequently diminish but gradually; and inasmuch as the local production has already been greatly reduced, it is not surprising to find that the importation of opium increased somewhat during the past year. Moreover, it must be anticipated that if the efforts which are being made to entirely eradicate poppy cultivation prove successful, there will be a further increase of imports for the current year.

RETURN of visitors to the City Hall Library and Museum for the week ending the 31st October, 1900:—

VETARZO BRAIN AND
NERVE FOOD.

This remarkable compound, the result of the latest developments and achievements of modern chemistry, pharmacology, and therapeutics, is without equal in all cases of defective nerve power, whether induced by worry, over-work, unhealthy climate, dissipation, excess, youthful imprudence, or other influences incidental to the war, and tear and haste of modern life. It is a powerful tonic, strengthening the nervous system, restoring vitality, promoting mental and bodily vigor, and local weakness, general and nervous debility, fainting, nervous prostration, premature decay or deficiency of the vital forces, impaired vitality, harassing dreams, night disturbances, sudden startings, dimness of sight, defective hearing, loss of memory, inability to perform the various duties of life, or to enjoy its pleasures, restlessness that can settle to nothing, irritability of temper, female complaints, hysteria, painful periods, backache, bearing down sensations, nervous headache, wasting disease, night sweats, and all other phases of brain and nerve exhaustion, are successfully remedied by this highly scientific preparation. Bracing up the system generally, it gives tone to the exhausted nerves, arrests all weakening wasting discharges, leucorrhoea, restores the failing energies, and imparts new life and vigour to what had so recently seemed worn out, "used up," and valueless.

VETARZO BLOOD
MEDICINE.

Never before was there anything like it, nor can its marvellous properties ever be equalled in all cases of poor, weak, impure, or otherwise imperfect blood. It is a powerful tonic, strengthening the nervous system, restoring vitality, promoting mental and bodily vigor, and local weakness, general and nervous debility, fainting, nervous prostration, premature decay or deficiency of the vital forces, impaired vitality, harassing dreams, night disturbances, sudden startings, dimness of sight, defective hearing, loss of memory, inability to perform the various duties of life, or to enjoy its pleasures, restlessness that can settle to nothing, irritability of temper, female complaints, hysteria, painful periods, backache, bearing down sensations, nervous headache, wasting disease, night sweats, and all other phases of brain and nerve exhaustion, are successfully remedied by this highly scientific preparation. Bracing up the system generally, it gives tone to the exhausted nerves
